

Test 1	Accessing the Website			
	Test Objective: Ensure that the website is accessible through the URL.	Developer: Julie Sakai  Date tested: 2025/04/12	Peer tester: Miqueas Herrera Date tested: 2025/04/13	
Step	Action	Expected results: 2025/04/12	Developer pass/fail	Tester Screenshot pass/fail+
1	Visit the URL " <a href="https://buwebdev.github.io/todo/">https://buwebdev.github.io/todo/</a> ".	The page loads without any errors.	yes	Yes 
2	Refresh the browser window.	Confirm that the page reloads without any errors.	yes	yes 
3	Interact with the clickable buttons.	The page function works without issues.	yes	yes

				
Comments	The website loaded correctly and I was able to refresh the todo webpage without it crashing or malfunctioning. There were not many clickable functions but the last screenshot was one of the clickable buttons that I could interact with for the task list.			

Test 3	View A List of ToDo Task Items			
	Test Objective:	Developer: Hunter Dale Date tested: <2025/04/12>	Peer tester: Miqueas Herrera Date tested: <2024/04/13>	
Step	Action	Expected results:	Developer pass/fai	Tester pass/fail
1	Go to <a href="https://buwebdev.github.io/todo/">https://buwebdev.github.io/todo/</a>	ToDo List Opens	Yes	Yes 

2	Scroll Down To See Default List	Sees Default List	Yes	Yes
Comments	I was able to click the link and have it take me to a new window that was not broken. The webpage was responsive and easy to maneuver. I was also able to scroll to the bottom and find the default to do list.
